

## Grade A Automatic Cells 36v Lifepo4 Golf Cart Lithium Solar Battery 72v Lithium Ion Golf Cart Battery

Our Product Introduction

for more products please visit us on [enookbattery.com](http://enookbattery.com)

### Basic Information

- Place of Origin: China
- Brand Name: enook
- Certification: CE ROHS FCC UN38 .3 MSDS
- Model Number: Golf Cart Battery

### Product Specification

- Availability: In Stock
- Battery Cells: Grade A Automatic Cells
- Working Temperature: -20-65
- Storage Temperature: 0-45
- Continuous Discharge Current: 150A
- Environmentally Friendly: Yes
- Advantages: Ultra Safe With Smart BMS
- Charge Voltage: 58.4V
- Keywords: Lithium Ion Golf Cart Batter
- Cells: Lifepo4 Battery Pack
- Highlight: 72v Lithium Ion Golf Cart Battery,  
Golf Cart Lithium Solar Battery

## Product Description

### Product Description:

Our 72v battery pack, in particular, is designed to provide the highest level of performance in terms of speed, range, and reliability. It is ideal for those who are looking for a battery that can power their golf cart for longer periods without compromising its speed and efficiency. Whether you're using your golf cart for leisure or professional purposes, this Golf Cart Battery will surely impress you with its exceptional performance.

One of the best things about our Lithium Ion Golf Cart Battery is its BT Monitoring/GPS Display/Heating Optional feature. With this feature, you can easily monitor the battery's performance, temperature, and other details using your smartphone. You can also track your golf cart's location in real-time, making it easier for you to keep an eye on your vehicle and prevent theft.

Another great feature of our Golf Cart Battery is its optional heating system. This feature is especially useful for golfers who live in colder regions or those who play in winter. With the heating system, you can ensure that your battery remains warm and functional even in extreme weather conditions.

Our Lithium Ion Golf Cart Battery comes with a 10-year warranty, which is a testament to its durability and long lifespan. With proper care and maintenance, you can expect your battery to last for many years, providing you with reliable and consistent performance.

It is important to note that our Golf Cart Battery should be stored in a temperature range of 0-45 . Storing it outside this temperature range can affect its performance and lifespan. Therefore, it is recommended to store it in a cool and dry place, away from direct sunlight and heat sources.

In conclusion, our Lithium Ion Golf Cart Battery is a top-of-the-line product that offers exceptional performance, durability, and versatility. With its BT Monitoring/GPS Display/Heating Optional feature, you can easily monitor and control your battery's performance. Its 72v battery pack is ideal for those who are looking for a powerful and long-lasting battery for their golf cart. So, if you want to take your golfing experience to the next level, invest in our Golf Cart Battery today!

The graphic features a red location pin icon on a smartphone screen, labeled "Tracked by mobile phone". To the right, a large orange circle contains the text "GPS". Below this, the text "GPS Positioning Optional" is displayed. At the bottom left, there is an image of a golf cart and a large black battery pack. To the right of the battery, text states: "The batteries with GPS positioning function help for tracking the golf cars it is very popular for golf carts leasing companies."

**Over 16 Years industry experience in Lithium Ion Batteries**

**High Discharge Current**

**Customized BMS, Support High Discharge Current  
150A/200A/250A/300A**

The graphic shows a large black battery pack and a golf cart. A red button with a target icon and the text "CLICK HERE" is located at the bottom right.

**Over 16 Years industry experience in Lithium Ion Batteries**

### Features:

Product Name: Lithium Ion Golf Cart Battery

Voltage/Capacity: 36V,48V,51.2V,72V

Lithium Iron Phosphate

Storage Temperature: 0-45

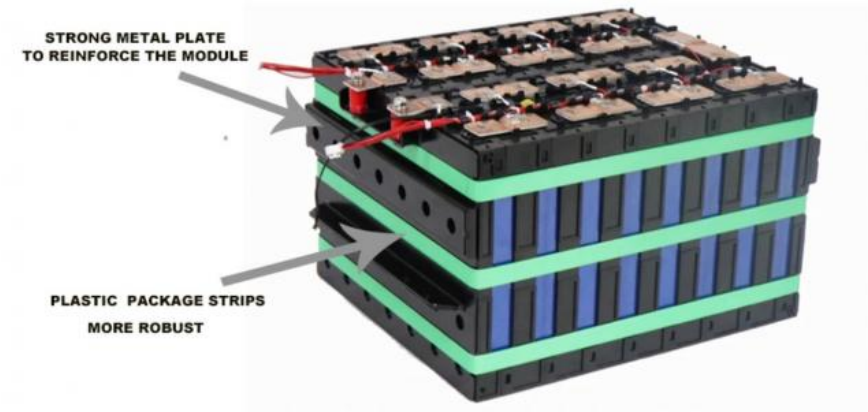

Weight: Approx. 44.7kg

Working Temperature: -20-65  
Sizes: Customized (Approx. 4.0~40.0kg)

**NEW DESIGN**

**ENOOK®**

**GOLF CART BATTERY MODULE STRUCTURE  
SAFER, ROBUST**

**51.2V 105AH HIGH QUALITY MODULE**

**Technical Parameters:**

Product Name:	Lithium Ion Golf Cart Battery
Chemistry:	Lithium Iron Phosphate (LiFePO4)
Working Temperature:	-20-65
Battery Cells:	Grade A Automatic Cells
Storage Temperature:	0-45
Environmentally Friendly:	Yes
Voltage/Capacity:	36V,48V,51.2V,72V
Weight:	Approx.44.7kg
Cut-Off Voltage:	40V
Charge Voltage:	58.4V
Availability:	In Stock

This Golf Cart Battery is a Lithium Iron Phosphate 72v battery pack.

## Ultra Safe Robust Durable Module Structure

**48V 105Ah LiFePO4 Battery**

### Applications:

The Golf Cart Battery is ultra-safe thanks to its smart BMS (Battery Management System), which prevents overcharging, over-discharging, and short-circuiting. This ensures that the battery pack lasts longer and performs better, giving you more value for your money.

The enook Golf Cart Battery is perfect for use in a variety of scenarios, including golf courses, resorts, and parks. Its small and compact size (472\*334\*243mm) makes it easy to install and use, and it is available in stock for immediate delivery.

The Golf Cart Battery is designed specifically for golf carts, making it the ideal choice for golf enthusiasts. With a weight range of approximately 4.0~40.0kg, it is lightweight and easy to handle, yet powerful enough to provide the energy needed to keep your golf cart running smoothly.

Overall, the enook Golf Cart Battery is a great investment for anyone who owns a golf cart. Its safety features, reliability, and efficiency make it a top choice for golf cart enthusiasts everywhere.

## Lithmate Can Provide Complete Battery System Solution

Charger, Voltage Reducer, Bracket, Display, Charger receptacle, etc

### Customization:

Customize your enook Golf Cart Battery to fit your specific needs!

Our Golf Cart Battery is manufactured in China and comes with CE, ROHS, FCC, UN38.3, and MSDS certifications.

The battery pack has a voltage of 72v and uses grade A automatic cells, ensuring a cycle life of over 4000 cycles.

The working temperature range of the battery is from -20 to 65 , making it suitable for various weather conditions.

The cut-off voltage for the battery is 40V, protecting the battery and prolonging its lifespan.

Customizations available include:

Adjusting the weight of the battery pack to a range of approximately 4.0~40.0kg

Adding extra battery cells to increase the capacity of the battery pack

Customizing the battery management system to fit your specific needs

Contact us today to get started on customizing your Golf Cart Battery!

LiFePO4 Battery for Golf Carts(OEM/ODM Acceptable!)					
TECHNICAL SPECIFICATION					
Model	Nominal Voltage	Nominal Capacity	Energy(KWH)	Dimension(L*W*H)	Weight(KG)
<b>36V</b>

LM72160	73.6V	160Ah	11.77KWH	800*475*221mm	115KG

Above data for your reference, pls feel free to contact us to customize your own battery solutions

## Golf Cart

**LiFePO4 Battery**

- Support Big Current for Climbing hills(200A/250A/300A)
- GPS Positioning
- BT monitoring / Display Screen optional
- Grade A Famous LiFePO4 Prismatic Cell
- Low Temperature Heated System
- Longer cycle life, safer
- **Print your own brand**

**24V/36V/72V**  
**5 Years Warranty**

### Packing and Shipping:

#### Product Packaging:

The Lithium Ion Golf Cart Battery is carefully packaged to ensure safe delivery to our customers. The battery is wrapped in protective foam and placed in a sturdy cardboard box. The box is then sealed with high-quality packing tape to prevent any damage during transit.

#### Shipping:

We offer free shipping for the Lithium Ion Golf Cart Battery to all locations within the United States. The battery will be shipped via a reputable courier service, such as UPS or FedEx, and a tracking number will be provided to the customer once the battery has been dispatched. Customers can expect to receive their order within 3-7 business days, depending on their location.

## PACKAGING & SHIPPING

### A. PACKING

- 1). Best Quality 5-layers exporting carton or Customized Outer Packaging for Paper Bags;
- 2). Carton Size: Customized or based on actual weight and volume.

### B. TRANSPORT

- 1). By Express (3-15 working days), there are express shipping or economic shipping, suitable for Small Quantity.
- 2). By Train (30-50 days), for EU Country, including customs clearance, all the import tax fees, and UPS delivery to the door.
- 3). By Sea (30-45 days), it is suitable for regular Mass Production.

**Please tell us your requirement about the Shipping, so that we can provide solution to save your budget and meet your needs!**
